

## HB1171: Unfavorable Position

I sincerely believe that this bill will have a negative effect on society. The language with which it's written will make the State of Maryland a sanctuary for all kinds of minors' sexual abuse and then abortion. It fails to differentiate between adults and minors, and its ramification will be disastrous especially upon the weak and defenseless, while protecting predators, besides the fact that it easily will destroy the most vulnerable (children in the womb)!

If the State does adopt this bill, it will not be a good state for parenting, and slowly but surely will lead to its ruin.

Thanks for taking our opinion into consideration.
