

HB1171

OPPOSE

I am a former Democrat who was steadfastly pro-choice. Within the last couple of years however, it seems to me that there really does seem to be a movement to destroy humanity. Actually, not just humanity but our Constitution and our country. I never saw this before, but now my eyes are wide open.

Nowhere in the Constitution does it say that we have the inalienable right to take innocent life. You all took an oath to uphold it and must abide by it. Please oppose HB1171.
