

Please do not support this bill on behalf of the unborn children and the women it will harm. This bill will allow rapists and traffickers to cover up their crimes and so will further endanger women, not protect them. It will further make people who oppose abortion to become complicit by using tax dollars to fund these abortions. Innocent unborn lives are at stake, and the well being of women in desperate need will be severely damaged. Both can be protected, but not through abortion. Please end support for this bill.

Peace,

Stephen Seibert
