This Right to Reproductive Liberty bill should be killed because I do not agree that it's okay to legalize minors and adults being able to have sex - Having intercourse with a minor is NOT ok. This bill has no distinction of age, which is ridiculous. I do not agree that it's ok to have the taxpayers pay for abortions and any other fees related to preventing, continuing or ending pregnancy. I do not agree that it's okay that anyone to go to Maryland from any location to be able to have the services in this bill offered to them. I do not agree in allowing minors to seek an abortion, sterilization, transgender surgery etc. without parental consent .
