

The Children of Light ask you, we plead with you STOP this insanity please and stand for life. Do you know where Margaret Sanger put her abortion clinics first? Yes, in the poorest neighborhoods and focused her evil on the people of color. She said and did horrible things.

Our Maryland legislators are attempting to amend our sacred state constitution to include "reproductive liberty" (child slaughter) as a fundamental right. May God wake and shake every one of you to see the light and the horror of your ways. I do not believe our founders would have wanted or could have ever conceived of such diabolical and wicked behavior in the year of our Lord, 2022.

Say NO to HB1171 for the sake of humanity. Clearly Ms. Jone works for the evil one.
