

**SB 0535**

**I support this bill and I ask you to do the same.**

**Dismembering a child's body is cruel and barbaric.**

**This bill will protect the child and will also protect the psyche of all those who would have to participate it in, as well as the impact it may have on the mother's well being for the long term.**

**This is a very poor use of science.**

**There has to be a better way.**

**This is not it.**

**Sincerely,**

**Lind Stevens**
