

Let Your Pro-Life Voice Be Heard!

Speaker Adrienne Jones introduced **HB 1171** Right to Reproductive Liberty and rushed it to and through the HGO Committee to try and add a RIGHT to an abortion through birth in our state constitution. If passed in both chambers of the General Assembly, the right to an abortion would be added to the state constitution through a ballot vote, nullifying nearly all current limitations to abortion in Maryland. It would make it impossible to restrict or eliminate abortion, even in the event that Roe vs. Wade is overturned. If passed in the House, the bill will move to the Senate.

What can you do? Call the members of the **Senate Finance Committee** to tell them you **OPPOSE** a Senate version of **HB1171**. You will speak with a staffer and will not be required to debate.
