To Whom It May Concern:

I am writing in opposition to HB 1171, "Declaration of Rights-Right to Reproductive Liberty." As a mother of three children who were terrorized and molested by a sadistic pedophile, I am appalled that such a bill has been drafted. I cannot even begin to describe the devastation and the destruction of my children's lives and their innocence because of the evil monster who manipulated them for his own pleasure. They have suffered tremendously and will suffer for the rest of their lives. Child molesters will stop at nothing to satisfy their perversions. Children and the vulnerable should always be protected. Laws are meant to protect. Because this bill makes no distinction between children and adults and because it does not define age, children will be abused and tortured if this bill is passed. Children who have been sexually abused and assaulted are forever changed and suffer greatly physically, spiritually, and emotionally for the rest of their lives. What about their rights?!? This bill is diabolical and anyone responsible for passing it is directly responsible for all children who will be abused due to its passing. For the sake of justice and the preservation of our children and their innocence, please vote against this evil bill. May God have mercy on all of you!

Sincerely,

Susan McIlroy
