

Minors have a distinction for a reason.

Voting, drinking, an aspirin at school, military service, ear piercing, blood donation and more are influenced by age.

If they're consent is the only one required, what is the next thing? Allowing pre-born babies to choose life?

Unbelievable!

Also, why the heck are Marylanders paying for non-Marylanders' medical procedures. Could make MD an accessory to Murder! Not too mention impacting the Budget. Hey. MD is not CA.

Do not allow this Bill to go to people.

Stop it here.

Stop it now.

Thank you,

J. A. Ver Hoeven
