

I oppose this bill as it is written. The wording is way too general. It is written in such a fashion that it is absent specifics and safeguards to prevent sexual abuse and rape of minors and children. It does not legally protect children from their manipulation both physically and psychologically. It provides for a definition of "liberty" that child molester sexual criminals could exploit to the extremest degree. The wording of the law could be so construed as to legalize the sexual harassment of children along with their potential sexual bondage!
