

To Whom It May Concern:

Please be conscious of the gravity of what Bill 1171 is proposing. Your Bill makes no distinction between Adult and Minor. As a culture supposed to love and protect our children, this Bill basically gives a green light for child trafficking and child abuse. This bill opens the door for anyone willing to travel to Maryland for an abortion. In 1991, the embryo protection law defines the beginning of life in a medical sense to wit, the embryo is the fertilized egg capable of development already from the time of fertilization.
