

I am very strongly opposed to HB 1171. It removes all protections for minors from sexual predators and those who would exercise oppressive influence, even in a life-or-death matter such as abortion. It removes all protection for unborn children who should never be attacked. It negates the rights and responsibilities of parents to care for their children and to make decisions in the best interests of their minor children. If it is an attack on the family, the building unit of society, by allowing the intrusion of both strangers and government into its most intimate relationships. I do not see how this bill can be fixed so it must be defeated.
