Maryland General House Assembly,

We, as a household, declare that this bill is unfavorable. In its entirety, it is contradictory to the basic human rights afforded to the most vulnerable of the citizens of the United States. There is no way to amend or restate this bill to adhere to the rights given to children of any age or state of being in the United States. The right to life is God-given, unalienable, and guaranteed under the constitution of Maryland and the United States. Under the guise of reproductive rights, this bill also opens the door to allow children of all ages, including victims of abuse and human trafficking, to be brought to Maryland where their abuser will be free from consequence of his actions. We fully expect this witness testimony to be heard, recorded, and acted upon; in full accordance of the law.

Sincerely,

Lauren N Hunt
