

HB1171 - Declaration of Rights - Right to Reproductive Liberty

This it to notify the state of Maryland that I strongly oppose this bill. No distinction on a person's age to prevent, continue or end a pregnancy? If they can't afford to pay for services, the tax payers have to pay? Any person from any state can get these free services? This is ridiculous! Should we just have no age limit of when people can vote as well?

Get some morals Maryland! Have some integrity!

This Bill is so wrong in so many ways!! People under age are not equipped to make the best or right choices for themselves. Parents need to be involved and informed.

Please do not go through with this bill.

Sincerely,

Colleen Clarkin

Hugo, Minnesota
