

I strongly oppose BH 1171. Abortion is immoral and so I oppose it at all levels. Additionally, Maryland already has the most permissive laws in the country, so there is no need to enshrining such an immoral policy in our constitution. I also oppose my tax money being used for such immoral acts. Everyone is so concerned with following the science. Science has proven that life begins at conception. Therefore, any bill that allows anyone to have an abortion is killing a living being.
