

Good Morning,

I want to voice my dispute for bill 1171. This scares me as a point of no return. How can statutory rape laws and age of consent laws be erased? There is no age in posted in this bill. Please do not pass this bill. Minors always need by parental consent for an abortion. Not only this, but Maryland residents should never be required to pay for another's abortion. Sex between adults and people under 18 is illegal and should remain so.

Thank you for your time,

Christina Garni
