

Dear Representatives – I am extremely saddened by the continuation of a **black genocide** in our country and for some reason Black politicians are at the forefront pushing the continuation of this black genocide as well as other minorities based on the horrible legislation proposed by Speaker Adrienne Jones regarding HB1171.

This legislation doesn't even mention the word ABORTION but that is what she means when she says "reproductive liberty" to ensure the killing of more black, Hispanic and white babies but as we know the majority of babies that will continue to be KILLED are BLACK and HISPANIC – WHY do you want to destroy you own race as well as other races ??? This makes no sense to me – I am begging you to STOP this genocide and truly tell the AMERICAN people that **YES ALL BLACK LIVES MATTER** especially the **UNBORN BLACK BEAUTIFUL BABIES!!!**

Maryland is already a state where abortion is available throughout pregnancy. Maryland is even a destination state for those seeking abortion. This bill does the opposite of protecting women and, certainly, does not protect the unborn child. An abortion amendment means that any attempts to regulate abortion would require a new amendment to the Constitution. Safety regulations would be decried as making access more difficult and speaking about non-violent alternatives to abortion would be seen as an obstacle to abortion access. A companion bill seeks to remove the requirement of a licensed physician to perform the abortion.

Informed consent for any medical procedure should always be the norm. A woman seeking pregnancy support should know that she is receiving all information available about pregnancy and care available for her and her child.

In addition, this amendment would codify the legal killing of a segment of the population **minorities**, unborn people. History has shown us that any time we dehumanize a segment of the population, it is detrimental to the community and leads to desensitization of the human person in general. What segment of the population will be next to be determined as inconvenient or disposable?

The ongoing disparity of black deaths through abortion has led one leading black pastor to recently [decry](#) the "black genocide" taking place in the United States at the hands of the abortion industry. But what's really tragic is the support that abortion receives from Black and Hispanic politicians – If I were a Black or Hispanic politician I would be **OUTRAGED** by this disparity!!

In 2014, alone there were 259,333 black Americans killed by abortion. When we do some math, we find that 710.5 babies were killed every day that year. At 710.5 per day, it takes just under five days for **3,446 Black Americans to be killed by abortion. That's the same number that was killed by lynching between 1882 and 1968. SHAMEFUL!!!**

I urge each of you to recognize the value of the human person and their Constitutional right to life and reject this bill. **AS MINORITY LEGISLATORS I CAN'T BELIEVE YOU WANT TO DESTROY YOUR RACE!!!!**

KILLED HB1171 NOT MORE MINORITY BABIES-SAVE YOUR RACE!!!!
