

I am heartbroken by the notion that so-called leaders of the Maryland General Assembly are even considering an evil bill under the guise of the "Right to Reproductive Liberty" would even consider exposing our children to such a radical law that blocks the parent's authority. This is absolute tyranny against the heads of household and preying on the innocent. I cannot believe I have to write this opposition letter, the first in my life of 61 years, to the lawmakers of Maryland. STOP THIS EVIL!
