

This bill is vague and would allow the sexual exploitation of children and those underage. It removes the ability of parents to protect their children from grooming and sexual exploitation from predators and sexual deviants. This also allows for the murder of children in the womb and medical procedures without the approval for a minor without a guardian or parent. It also leaves an open door for abortions with no limitations for individuals and those who have been sexually exploited. This bill will allow for a dramatic increase of sexual abuse of minors and unchecked abortion.
