

Without a doubt, the most heinous and demonic bill I've seen attempted to be forced down the throats of all citizens of Maryland. The removal of statutory rape law, even to pubescent children? 'Consensual' sterilization of minors and sexual degeneration forced upon the children's souls and a society already burdened with mortal sin? Worst of all, is the 'right' to murder or destroy the life within the womb of the mother, as if she has a 'right' to kill another human in the first place, especially the one in her womb. Abortion ***is not a constitutional right***. No mother or father has the right to destroy and murder the innocent life within the womb!

Stop this deceptive attack on children, cease your hatred of life and your hatred for the dignity of the human form! Stop promoting the murder of innocent children! Blood will be on your souls and your hands if you do not oppose this inhuman, hateful and genocidal bill, which echos of eugenics and the shadow of the smokestacks of tyrannical murder of Children. I, a Roman Catholic first and a citizen of this Republic second, firmly, with the full force of my will, reject and oppose this vile, repugnant and diabolical proposed bill.
