

3/29/2022

Dear Sir/Madam,

I am writing with deep concern about Bill 1171 the negative effect that it will cause on life itself. The Bill mentions individual rights of liberty and equality as a fundamental right, but it contradicts with statement, "end their pregnancy" a baby is a human and deserves to live. Life begins at conception and life is precious in all stages of life. Please, I am asking and begging to stop this Bill it does not help anyone, especially life at all stages of life. Thank you in advance.

Sincerely,

Concerned Citizen (Laura Au)
