

As Maryland legislators, please be aware that HB1171 is an attempt to amend the state constitution to include **child slaughter** while calling it “reproductive liberty,” as though killing the unborn is somehow a fundamental right.

This bill affords no protection for minors who'd be victimized by those who'd know to use this law as a way to embroil them into abortions after trafficking these minors. And Maryland would become a haven for those out of state perpetrators on Maryland's dime.

In God's name, don't pass this bill.
