

Senators,

This bill HB 1171 is disgusting. So, in Maryland we want to pass bills to prevent cat declawing but go ahead and promote bills for abortion, statutory rape, and diminish parental rights in order to promote sexual perversion. We rightfully mourn for children in Ukraine but allow our own to be murdered in their mother's womb. What hypocrisy! How demonic. We are living in a world that is currently threatened with nuclear war and Saint Teresa's quote rings true "The fruit of abortion is nuclear war" ... meaning if we can't care for the most vulnerable how can we respect any life? How sad and twisted. This bill is the result of a morally sick soul. ALL life is precious!

Jim Harvey, Bel Air, MD
