

MGA TESTIMONY

I am vehemently opposed to this piece of legislation which gives license to any adult to hurt innocent children. Those who promote this are promoting evil and destroying the children who become the prey of all who care nothing for the lives of children and the country in which they live which is also ultimately destroyed by such evil laws. Please do not vote for this bill 1171. Please promote the welfare and the good teaching of all children in your state of Maryland by voting NO on bill 1171.
