To: Maryland General Assembly Members

Regarding assembly Bill 1171

Bill 1171 does not mention age thus including any number of minors who could be drastically harmed by this foul piece of legislation if you choose to make it into law. This will permit rapists and child molesters to push youth into jeopardy. Also, transgender selection and abortion will be lawfully permitted without parental consent. This bill does not protect anyone, but rather will cause long time pain for innocent victims.

Please vote against this godless piece of legislation. Vote against Bill 1171.
