Maryland General Assembly

Re: HB-1171

Dear Maryland General Assembly,

I write to you today to express the horror of HB-1171 in its enabling of child sexual abuse and the decriminalization of statutory rape, the stripping away of age of consent and the forced taxpayer funding of sexual perversion and child murder in abortions. This bill must not become a law. Please end this evil now and put this bill in the trash where it belongs.

Sincerely yours,

Mark Puzerewski
