

House Bill 1171 must not be allowed to pass!! It totally erases age of consent laws as well as statutory rape laws.

Adults should never be permitted to engage in any sexual activity with minors. There is also the issue of removing parental consent for minors seeking abortions, sterilization or transgender surgery paid for by Maryland tax dollars. This also opens up Maryland for paying for anyone coming to the state for these services. No age is even mentioned in this barbaric bill. Maryland would become a taxpayer funded abortion sanctuary. Stop this heinous bill immediately and do not let it go up for a vote in November. Children's lives are at stake and this evil must stop!

Respectfully,

Marie Muddiman
