

Maryland HB1171 is a heinous attempt to groom minors for sexual predation by the apparently perverted legislators of Maryland. It is regrettable enough that the bill seeks to make Maryland a center of genocide for unborn babies by creating a free abortion sanctuary for the slaughter of the unborn. But no Maryland's perverse political class, by allowing unrestricted sexual activity amongst all age groups, seeks to groom minors as the sexual objects of twisted adults. Truly the state that I was raised in and which bears the name of the Mother of God, Mary, has been conquered by the devil. The sins of recent decades of at-will abortion have so clouded the intellect of Marylanders that they no longer recognize sin. Indeed, the creators of this bill and supporters are agents of Satan and cooperators in his diabolical plan to destroy the human race. Reject this bill and let Maryland once again become a state that respects rights of all individuals including the unborn and does not seek to satisfy the blood lust of the abortion generation.
