

Why the heck are Marylanders paying for non-Marylanders' medical procedures? Could make MD an accessory to Murder! Not too mention impacting the Budget. Hey. MD is not CA.

Minors have a distinction for a reason.

Voting, drinking, an aspirin at school, military service, ear piercing, blood donation and more are influenced by age.

If they're consent is the only one required, what is the next thing? Allowing pre-born babies to choose life? Unbelievable!

Do not allow this Bill to go to people.

Stop it here.

Stop it now.

Thank you,

M. DeRitis
