

Dear Maryland General Assembly,

Pertaining to Bill 1171,

I find it appalling that you have the potential of legalizing sex with minors and then paying with tax dollars the money needed for the abortions that could occur. You have become a creator of sodomy, rape, and molestation at the cost of our children's innocence under the disguise of reproductive health rights. This is legalized human trafficking. May God have mercy on you all. This bill must be STOPPED. You have become an assembly of animals to allow this to even get as far as you have.

Praying you reconsider and pray for Gods guidance,

Nancy Marra
