I am in opposition to this bill.

How is abortion reproductive liberty? If one is pregnant, they have already reproduced. What is being call reproductive liberty is really asking the state to condone the reversal for one's use of that liberty. Can any of you remember when the claim was made that abortion was needed just to save the life of the mother. My how far down the slippery slope we have descended. Now the state wants to protect the right to have an abortion anytime and rename it reproductive liberty. Words are being twisted to justify the unjustifiable.

In addition, why this amendment? Our state already has laws that provide what this amendment is asking for. Do we add amendments for every law we pass? That is unreasonable. It seems a few individuals are pushing for something that is not needed.

In addition to this is the fact that, in the current atmosphere, with each new 'right' granted there seems to be an expectation that this new right will be paid for by someone else, namely the government! Be careful of what you are doing.
