

This bill fails to define "person" as just adults, which means that this bill would legally allow adults to have sexual relationships with minors all in the name of "reproductive liberty". In regards to abortion, which is the killing of a pre-born child, abortion in reality is anti-reproduction, and it is also a serious moral wrong, and a moral wrong can never be considered a "right". Therefore this bill has nothing to do with actually reproduction or one's moral right to liberty. So out of concern for the liberty and safety of pre-born children as well as minors, it is my hope that this bill will not pass.
