TO WHOM IT CONCERNS:

HB 1171 is an abomination! This should not have even been a thought in someone's head to propose and now it is up for review and consideration!? By entertaining the thought of this legislation you are destroying the family, fostering evil and doing the work of Satan.

God creates life which begins at the moment of conception. If you think life doesn't begin at the moment of conception, then what is happening after the egg is fertilized and begins to grow? That is life – growth. By considering this legislation, you are professing to the world that you believe in murder. Last I checked that was a capital crime punishable by life in prison.

Think for a moment, you, dear reader, if your mother had decided to abort you...all in the name of her "reproductive rights." You wouldn't be here right now. You wouldn't be reading this. You would have never been given the chance because your mother didn't think you were important enough to live so she just eliminated you. Does that seem reasonable? There have been over 60 million babies killed since Roe v. Wade was accepted. What if one, just one of those 60 million children was destined to be the person who would cure cancer or would bring about world peace? This legislation you are considering would kill millions more children and their blood would be on your hands. Maryland would be full of murderers and evildoers and (hopefully) all of the good, righteous people would move out of the state. I know I certainly would not want my tax dollars to go to pay for abortions. There are plenty of real problems in any state government that need tax dollars in order to be solved – killing babies is definitely not one of them.

By the lack of distinguishing between children and adults in the wording of this legislation, you are dragging all people into perversion. You are allowing children (the ones that are allowed to be born) to be brainwashed, warped, twisted and abused and all the other children to be murdered in their mother's womb. This legislation pays no mind to the beauty of the family, nurturing, protecting and loving in order to raise children to become caring, responsible and contributing members of society.

This legislation would lead Maryland down a path of evil, corruption, murder and destruction. Do you want to be responsible for the destruction of your state? Have you ever heard the story of Sodom and Gomorrah? If you haven't, it's time to take a minute and look it up. If you allow this to pass, you are on the same path.

God be with you,

*Carmel L. McClung*
