

Our children are our most sacred responsibility and it is our right and our responsibility as children of God and as citizens of the United States to protect them from the abuse and manipulation of adults who do NOT have their best interests at heart.

It is unconscionable that any government would seek to destroy their innocence by allowing the manipulation of their health and safety by anyone. No one below the age of informed consent (deemed by most reasonable people) to be at least 18 years of age, should be allowed to be abused and manipulated by an adult into sexual activity, abortion, birth control, gender transformation or any other activity that would result in irreparable harm.

No one has the right to take away the innocence of a child. NO ONE! This bill is shameful and evil.

Reproductive liberty is for adults, PERIOD. You have no right to deem a child as capable of giving consent. As a parent and as a grandparent, I implore you to withdraw this evil agenda immediately.
