

This Bill is completely outrageous! It infringes upon the rights of infants in the wombs. It also gives security to rapists who take their victims to get an abortion and cover their tracks but it also is abuse towards young girls and children. This bill needs to be destroyed and be got rid of. This is a terrible crime against humanity and our children. Abuses and sex trafficking will be allowed in more and more with this bill since anyone who asks for an abortion will receive one without any question as to why they want to kill their child. Do not abuse our children and let rapists and sex traffickers cover up their tracks with this bill.
