

Assembly:

LIFE begins at Conception. Biological FACT.

LIFE is the First Right enumerated in the Founding Documents for a reason. Historical FACT.

Without Life, all other rights are MOOT. Existential FACT.

LIFE must be vigorously defended, not casually abrogated by a poorly worded Constitutional Amendment. Legislative FACT.

There is a profound difference between Freedom and License; this Bill is licentious.

I oppose it with every fiber of my being.

I did not serve 10 years in the Military to sit idly by while innocent lives are destroyed.

Put this bill in the trash heap where it justly belongs.

L.A. Blasch, Jr.
