

Greetings:

HB1171, Declaration of Rights – Right to Reproductive Liberty, promotes the harm of minor children. This bill is perverse and promotes eugenics. This bill erases age of consent laws and statutory rape laws. Maryland state laws already have adequate protections for reproductive rights. This bill is an affront to the law-abiding citizens of Maryland and destroys protections of children.

I strongly urge all Assembly members to soundly reject this egregious bill.

Thank you.

William Zolp
