

HB1171 - UNFAVORABLE

I absolutely object to this bill. Children, of all ages, unborn, almost born and already born will have absolutely no protection. People of no specified age can freely exercise their “reproductive rights” without any consequences.

Under this law there is no protection from child abuse, sex trafficking of minors, statutory rape, rape of adults etc. Predators and abusers will force their victims to seek contraception and abortion in YOUR state, paid by YOUR citizens’ tax dollars so that they are not caught. And if they are caught, there will be no law to hold them responsible. Please do not make this horrible bill the law of your state. God Help Us.
