Dear Assembly,

I am writing today in opposition of HB1171. This bill is too broad. It never mentions age nor makes any distinctions between an adult or minor. "Reproductive Liberty" in this essence is a blank check for murder. There is nothing in this bill that will prevent an adult (predator) taking its minor (victim) across state lines for an abortion. This is a disgusting law and only garbage human beings would pass it. Have some moral decency and vote NO.

Respectfully yours,
