

HB1171 must be vehemently opposed and stopped.

There is no need for this Constitutional amendment. Unfortunately, Maryland currently has one of the highest rates of abortion in the country and there is no lack of access to abortion even up to the time of birth. What a heartless society we live in where our state government would even consider this horrible bill. We must do better as a society to walk with mothers in need and help break down economic, social, racial, employment and emotional barriers that lead mothers into thinking abortion is the only option.

HB1171 would enshrine abortion, at any stage, into our State Constitution. I believe that every person is created in the image and likeness of God and all life should be protected and respected from conception to natural death.
