RE: Bill 1171

I am writing this to place on record my HORROR at the content of Bill 1171. What is proposed to be considered acceptable and a "right", particularly related to a minor, is absolutely insane. This bill needs to be voted down in no uncertain terms. The responsibility of ALL elected officials is to the PROTECT the rights of each and every citizen – NOT pass legislation that has the potential for significant harm to all parties concern. I cannot urge you strongly enough to vote "NO!" when considering this bill.

Sincerely,

Karen Schultz
