

This bill is outrageous, we can't support anyone in public office that supports the killing of innocent human beings.

Abortion is absolutely wrong and no arguments can justify its morality or legality. It kills innocent human beings before they can develop and experience life. The right for life is a constitutional right. It also causes untold pain and suffering to an innocent fetus and can seriously harm women physically, morally and spiritually.

Human life begins at conception and this implies that at whatever stage a pregnancy may be terminated, an innocent being would have been killed.

- It further increases tolerance to killing.
- The fetus is a human being and should be allowed to grow and be born and live their life to the fullest. A fetus has a unique genetic code and thus it is a unique individual person.
- To legalize abortion and to view it as being right is like to legalize killing and see nothing wrong with it.
- The respect people have for human life would be reduced if killing would be legalized.
- Loss of society's respect for human life may result into increased murder rates, genocide, and euthanasia.
- Abortion is can seriously harm a woman's body and, in some cases, lead to the death of that woman.
- It yields both anticipated physical side effects as well as potentially more serious complications.
- In other instances, a woman may experience serious complications that may even threaten her life as a result of having an abortion. I have personally witnessed many women leaving in an ambulance in front of a plant parenthood clinic. We have to stop lying to people saying abortion is right and good for women, on the contrary, they usually suffer for the rest of their lives.
- It also causes untold pain and suffering to an innocent fetus

We should work on prevention, empowering women, protect them to be happy in life. Manipulating and convincing them to get an abortion is not for their own good and for the good of our society. No one should ever be advising to kill their own babies. We need more pregnancy centers, adoption centers that truly cares about the mothers and their babies.
