

This is the most disgusting bill/ legislation I have ever seen!! Does the author of this bill know that this is the United States of America? Does he/ she know that every pervert in Maryland and every state in the union will be descending on your state to rape and find a girl of any age to do whatever he wanted to. And after he got her pregnant than getting an abortion all on Maryland's dime. Maybe this is something that excites the author of the bill and will make his life of debauchery much easier. I can't believe a human being could even consider this garbage. Please vote this thing down or pay a huge price
