

This is an adamant stand against bill HB1171. It's unconscionable that anyone would remotely consider proposing such a diabolical bill. How can anyone fathom destroying the life of a human being like they would kill an insect. And to think that any perverse act to a minor or teen without repercussion is mind blowing. My family will be in constant prayer to fight this immoral bill and to pray for the people involved in its inception and proposal. May God have mercy on the souls of those who persist in this bills ratification.
