

March 29, 2022

My wife and I adopted a newborn from a woman who did not want him. She was 7 months pregnant and in prison. Social services asked my wife if we would take the baby and without hesitation my wife said yes. That was 15 beautiful years ago that we took Justin John Paul home. How did life become so expendable, worthless? We are made in the image and likeness of God. To have a bill usurping parental rights is demonic. A bill that is so anti child/young adult is evil. When did we stop loving our youth? I pray that the assembly will vote HB1171 down tomorrow restoring some good. Please I pray contemplate what this bill is all about, the killing of the most innocent, mutilation of children and other disgusting hideous and evil things I cannot even bring myself to write down. Please, Please, Please I pray think about this before you cast your vote, think long and hard. Do not want to be remembered for creating the most evil law put into place that has such disregard for the life of our youth, or to be able to say you took a stand against this evil regardless of what your peers might say. I pray the right outcome will be won!!

Thank you

Frank Riello
