

March 30, 2022

Dear Members of the Maryland General Assembly,

It has come to my attention that Bill HR 1171 has come to the Assembly for a vote. The Bill contains language that would cause great lifelong harm to children by making it impossible to sue an adult for having relations with a minor, or prepubescent child. And, it also allows a minor to seek an abortion, or even transgender surgery, without parental consent. I strongly urge you to support and protect our most innocent and precious children and vote NO for Bill HR 1171!

Thank You.
