Dear Maryland General Assembly members,

I strongly oppose HB1171 (Declaration of Rights – Right to Reproductive Liberty) as it creates an intolerable and immoral law where children can be subject to adult rape, as well as taking away many parental rights. This is an outlandish law which should never have been proposed. Allowing minors to make decisions about abortion, transgender transition and all other important sexual matters without parental knowledge or consent is a terrible overreach by the government. I cannot imagine who in their right mind finds this bill to be appropriate on any level for anyone. Please say “no” to HB1171.
