

Abortion/slaughter of the innocent unborn is the abomination (of desolation) or nations,
especially "the land of the free and home of the brave"/"one nation, under God,
indivisible, with (life,) liberty, and justice for all (born and unborn)."

Please kill (pun intended) this bill to prevent the increased slaughter of innocent blood, including that from other states to be funded by all Maryland tax payers, including those who disagree and are horrified with this proposed legislation. Please end the insanity, our nation is better than this. We can support all unplanned pregnancies especially with the help of God the almighty trinity. The birth of our Lord and Savior Jesus Christ was somewhat unexpected/unplanned for His earthly parents, the blessed Virgin Mary Mother of God and Saint Joseph. Jesus, Mary, and Joseph pray for us. Thank you for your time and attention and great state which contains my alma mater, the United States Naval Academy. If i had to guess, then i think most graduates would not want to fight/sacrifice their own lives and liberties to defend "reproductive liberty"/ legalization of unjust murder of the most innocent and defenseless. This is senseless. Ave Maria! God bless.
