

I am 100 percent against this bill. First of all, God created man and women. There are two genders and my faith will always affirm that. Secondly, B 1171 allows minors to make life-changing decisions. Any child under 18 years of age, has a parent for a reason: for guidance, support and love. If one is truly following the science, persons under 18 have brains that are certainly not fully developed and it is demonic to allow children to make these moral, life-altering decisions at this young age.
