

SB839: Maryland Voluntary COVID-19 Vaccine Passport

UNFAV

Kara Fisher

Dear Chair, Vice Chair and Senate Finance Committee:

I ask you to oppose SB 839.

A system like this is **unnecessary**. It will be an expensive proposition to design, test and implement a digital system and marketing plan. There is no need for any business or organization to see a mobile vaccine record.

A system like this is **discriminatory** against those who will not have the means to acquire a mobile phone or share this data via a mobile device.

A system like this is **risky** as it puts aggregated confidential medical information in one place where it could be vulnerable to hackers.

Thank you.

Kara Fisher
